Simple Baffle

No matter what your space—from retail to workplace—sound matters. Use EchoPanel® Simple Baffles to design spaces that look great with the right kind of sound profile. Direct mount or hang baffles from the ceiling at any height with cable or rod, using our versatile UC bracket system. Have a unique design idea? Custom shapes and custom printing are available, as well as a variety of hardware options.

NRC (SOUND ABSORPTION RATING): ASTM C423-90A

While all EchoPanel products offer varying degrees of sound absorption, not all have been tested for NRC using the ASTM standard test method for sound absorption.

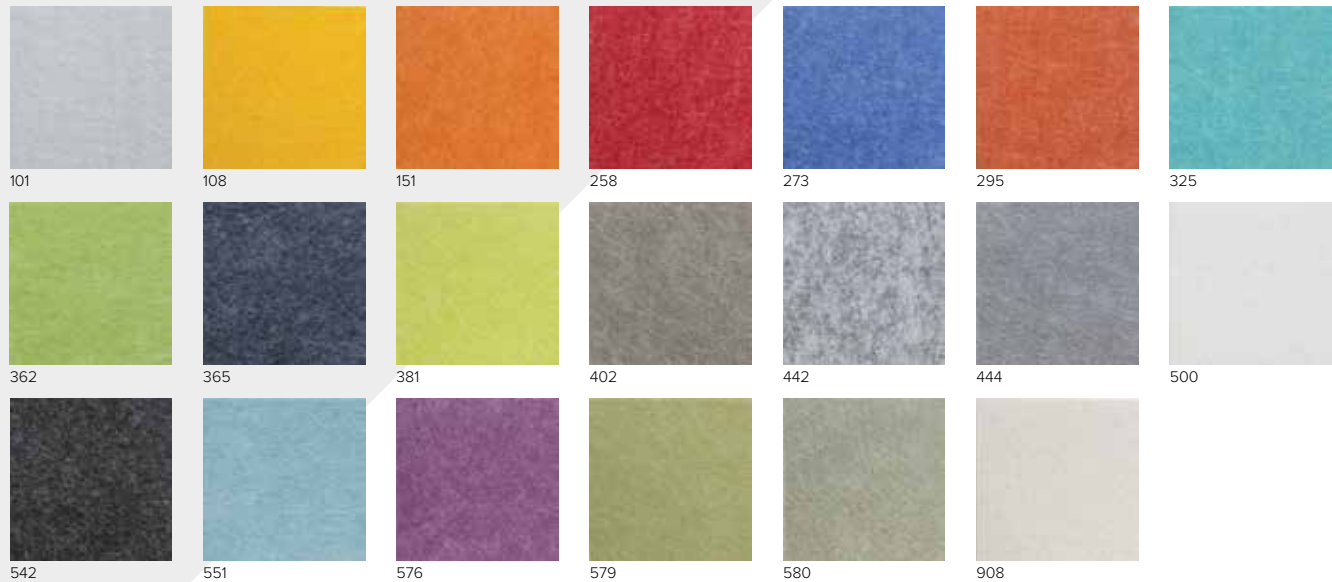

Fire Rating

ASTM E84 Class C (Class A treatment available)

VOC Emissions

ASTM D5116 <0.07mg/m m2/hr. (7 Days)

Available solid colors

Hardware

Included Hanging Hardware

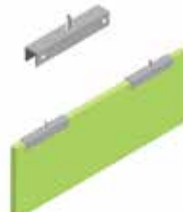

Each Simple Baffle comes with 2 UC brackets as specified. Select the UC bracket that best fits the planned mounting. In addition, several companies supply hanging hardware compatible with 7mm, 12mm and 24mm EchoPanel®.

DUC (Direct Mount U-Channel)
Direct mount U-channel for flush attachment to drywall or wood ceilings

MUC (Male U-Channel)
Male 1/4"-20 threaded rod attaches to standard hanging hardware

FUC (Female U-Channel)
Accepts 1/4"-20 threaded bolt or rod for concrete ceiling or other hardware installation

EUC (Eyebolt U-Channel)
Provides open loop for cable, hook or clip mounting

Add-on Hanging Hardware

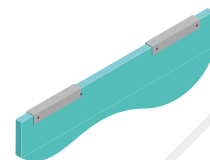

Premium Mounting Hardware
Kirei offers premium mounting hardware including Gyford and GripLock hanging systems.

T-Grid Clips
Add style to plain drop ceilings by mounting EchoPanel baffles. T-grid clips and FUC brackets easily attach to standard 15/16" T-Grid.

Custom Cutting

Customize it
Have a unique design idea? We can custom cut any shape you can dream up!
