H-Baffle

The EchoPanel® H-Baffle is designed to look great while dispersing and absorbing excessive noise. The H-Baffle can be ceiling hung at any height using cable or rod. Hang EchoPanel® H-Baffles in regular rows or random groupings to create wayfinding or other visual design solutions. Custom configurations available.

NRC (SOUND ABSORPTION RATING): ASTM C423-90A

While all EchoPanel products offer varying degrees of sound absorption, not all have been tested for NRC using the ASTM standard test method for sound absorption.

Fire Rating

ASTM E84 Class C (Class A treatment available.)

VOC Emissions

ASTM D5116 <0.07mg/m m2/hr. (7 Days)

Available solid colors

Hardware & Installation

Mounting Hardware Options

Hanging Hardware

H-Baffle comes with either Eyebolt or 1/4"-20 male threaded screw hardware, which is compatible with female 1/4"-20 mounting hardware (sold separately).

To install H-Baffle, attach specified ceiling mounting hardware and suspension cable/chain/rod/etc., with appropriate connector at the bottom end. Note that Kirei does not provide this ceiling mounting hardware or cable rod. Once ceiling hardware is installed, attach the connector to supplied attachment hardware on the H-baffle.

Visit our website to download the H-Baffle Installation Guide for more detailed information.
