

EchoPanel EchoLine

FAQ

What is EchoPanel EchoLine?

EchoLine is a decorative surface finish offering acoustic performance with a felt-like face finish and a linear or grid pattern.

Does it have the same green story as EchoPanel panels?

Yes, EchoLine is 100% PET and has up to 60% post-consumer recycled content with low VOC emissions.

What makes EchoLine great?

EchoLine maintains sound absorption and creates a subtle pinstripe or grid look for both flat and curved walls and ceilings.

How many styles does EchoLine come in?

EchoLine comes in four styles: Square 2.0, Groovy 0.5, Groovy 1.0 and Groovy 3.0.

What colors does EchoLine come in?

All 12mm EchoPanel colors.

What is the size of EchoLine?

46" x 94" x .47" (1168.4mm x 2387.6mm x 12mm)

What is the NRC of EchoLine?

NRC ranges from .35-.75 depending on installation. Standard EchoLine NRC acoustic data is available for acoustic calculations. Please contact Kirei for this test data.

Where can EchoLine be used?

EchoLine is an acoustic solution for commercial, hospitality, restaurant, education, residential and entertainment spaces. It can be used for wall covering, ceiling panels, and all types of architectural designs where acoustic performance is desired.

How is EchoLine installed?

EchoLine can be mounted in a variety of ways. Please refer to the EchoLine Installation Guide for details.
