Paling

Office needs change every day, so you need furnishings that can change in a flash. The EchoPanel® Paling is a reconfigurable partition system with a “kit of parts” that can be assembled using our standard joiners to quickly create flexible collaborative workspaces, room dividers and single desk private spaces. Paling panels pack flat for easy storage and break down and set up in minutes. EchoPanel® acoustic panels absorb sound, helping reduce distraction and inspire creativity, and are made from recycled plastic soda bottles for a great green story as well.
