Geometry Tiles

Peel-and-stick Geometry Tiles can quickly transform your space both visually and acoustically. These bold, geometric tiles are a decorative surface finish offering acoustic performance with a felt-like finish. They are produced from 100% PET (Polyethylene Terephthalate) that, depending on the color, contains up to 60% post-consumer content.

Installation

Peel-and-Stick

Prior to installation, ensure the surface area to which the tiles are going to be fixed is smooth, clean and free from dust or any other contaminant that may impede the installation. Geometry Delta Tiles have an adhesive backing. Peel off the backing and stick on to substrate. Even pressure should be used when applying the tiles to any substrate to ensure attachment.
