## DASH TILES

### Acoustic Tiles

Deliciously simple, deceptively complex. The Dash Tile allows you to mix and match placement and pigments to create walls that recede into the background or pop out like never before. Pick complementary colors and prints for the two different layers to add visual power to the acoustic performance. Dash Tile's 11.5" x 11.5" size allows it to play nicely with both Texture and Sync Tiles so you can give every room a dash of delight.

Color variation between dye lots is a natural characteristic of recycled PET felt due to the manufacturing process. Slight differences between samples and finished product may occur.

# Installation

When mounting, use standard construction adhesives (e.g. Liquid Nails/Titebond - NOT PVA glue). Clean and prepare surface per adhesive guidelines. Spread adhesive evenly on the back of the tile, leaving room at the edges for glue to spread. After applying adhesive, mount tiles per layout and maintain even pressure per adhesive manufacturer instructions. Clean any excess adhesive. For more information, see the [Dash Tiles Installation Guide](#).
