# Specs

	Standard (LxH)	Thickness	Weight	SF/Panel
12mm Panel	46" x 108"	0.47"	18 lbs	34.5

All specs refer to singular products and not multiples unless specified. Due to the nature of the material, cutting and fabrication process, minor dimensional variances may occur. Kirei Ink prints are sold individually without a backer and ship flat. Custom options available upon request. Print quality can slightly change for reorders. panels are printed on a single side, and not on the edges

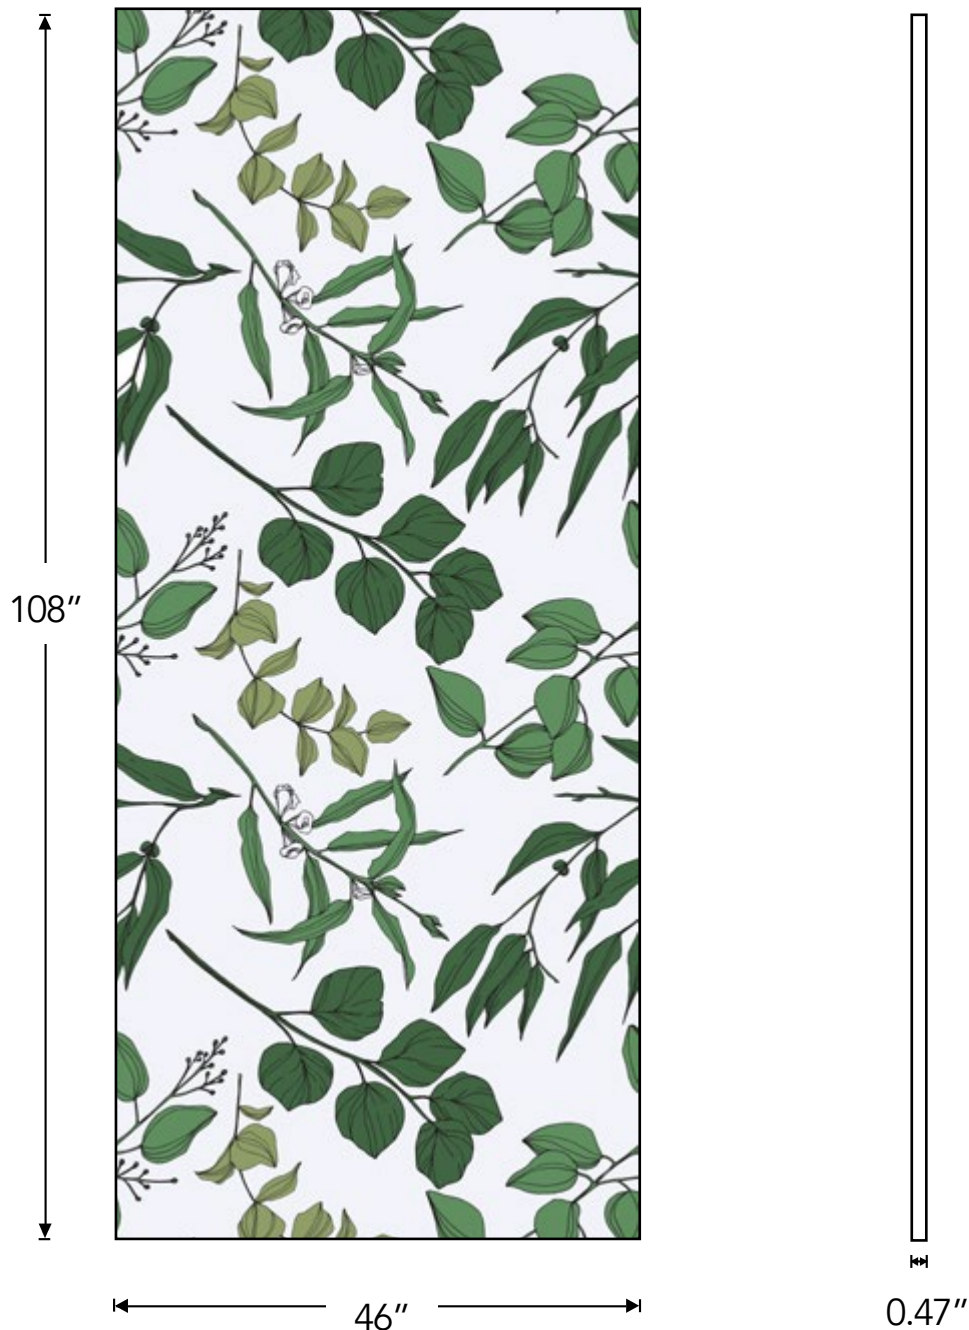

Designer	Kirei
Panel Thickness	12mm
Material	100% PET (60% post-consumer recycled content) Greenguard certified, water soluble PROGRAPHIC® UV ink
NRC	0.45
Fire Rating	ASTM E84 Class A
VOC Emissions	CDPH (CA 01350) Compliant TVOC: <0.5 mg/m3
Custom Options	<a href="#">Custom Terms</a>
Lead Time	*4-6 weeks

\*Actual lead times are determined when the project goes into production and can change based on production schedule and all quantities, color and thicknesses being in stock at time of order. See [Kirei's Product Lead Time Disclosure](#) for more information.

# Product Detail

Kirei Ink is printed on 100% PET felt panels with 60% post-consumer recycled PET. Kirei Ink prints are printed using water soluble PROGRAPHIC® UV ink that is Greenguard certified. These LED inks contain less than .03% volatile organic compounds and are void of heavy metals. They also contain up to 50% monomers and oligomers that are naturally derived from renewable resources, such as plants and biomass. Due to ink settings, environmental factors and dye lot variations, we cannot guarantee an exact color match as samples may vary slightly from the final product. **Keep in mind that panels are printed on a single side, and not on the edges.**

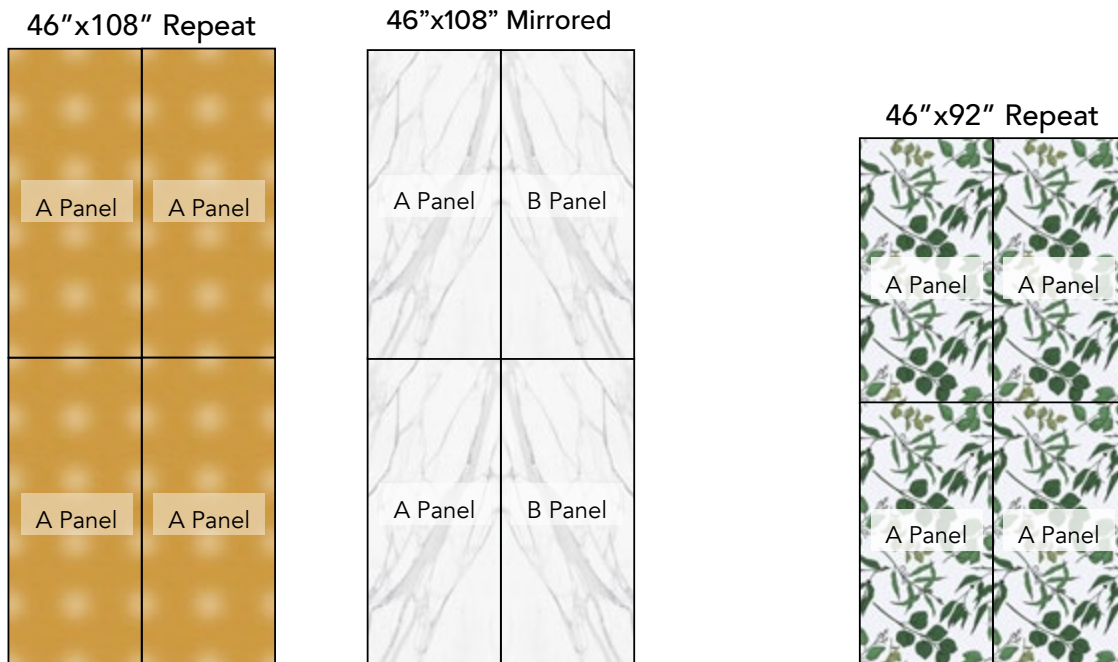

# Product Detail

Kirei Ink Panels are manufactured to abut with no trimming. If trimmed incorrectly on site, the panels will not abut properly. The width of the panels should only be trimmed at the beginning or end of the wall. When trimming the height of the panel, the installer will need to choose the top of the printed panel or the bottom of the panel and remain consistent throughout the project. Some mounting systems will require on sight trimming to ensure the gap between metal, plastic or wood trims are correct. For best results, measure wall and coordinate pattern orientation and repeat before installing.

All panels are designed with a pattern repeat with most repeating at 46"x108" (which is a full size panel). The following prints have a pattern repeat different than 46"x108":

- Tea Leaf: 46"Wx92"H
- Cut Stems B&W: 46"Wx92"H
- Cut Stems Color: 46"Wx92"H
- Tree Rings: 46"Wx92"H
- Clear Water: 46"Wx92"H
- Sandstorm B&W: 46"Wx92"H
- Sandstorm Color: 46"Wx92"H

If a project needs a mirrored panel design, there will be two versions of the print - an A panel and B panel. These will be installed in A,B intervals horizontally and vertically.

*Note: Imagery above depicts a full wall install. If desired, please specify as that is considered custom.*

# Installation

Kirei Ink panels can be installed on walls and ceilings as well as in office furniture systems and wall panel systems. Printed panels can be customized into clouds, baffles, tiles, and more. For instructions on how to install panels in a variety of ways, and for pattern repeatability information, please visit our website and download our [Kirei Ink Panels Installation Guide](#).

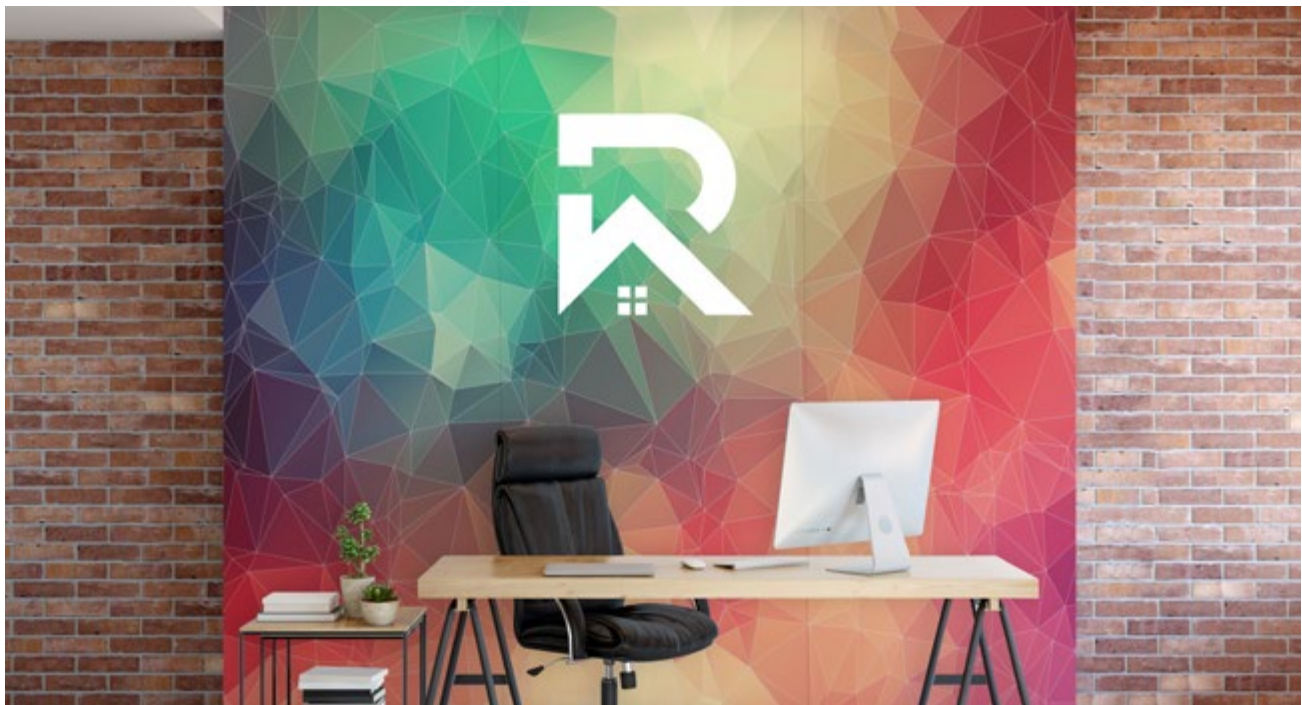

## Custom Printing

Our panels are printed in house. We would love to work with you to print your own custom color, pattern, graphic or material. Reach out and our team will be ready to assist!
