O-Baffle

The EchoPanel® O-Baffle is a simple, classic design developed to create a strong visual impact while absorbing maximum sound. This bold baffle can be a focal point in the room or disappear into the ceiling while significantly increasing acoustic control. Integrated airspace of 150 cubic inches per foot provides great sound absorption. Hang EchoPanel O-Baffles in regular rows, random groupings, or with other baffle systems to create beautiful architectural design solutions. Custom configurations available.

NRC (SOUND ABSORPTION RATING): ASTM C423-90A

Standard EchoPanel NRC acoustic data is available for acoustic calculations. Please contact Kirei for this test data.

Fire Rating

ASTM E84 Class C (Class A achievable with treatment)

Hardware & Installation

Eyebolt Mounting Hardware

Hanging Hardware

O-Baffles have two attachment points with a 1/4"-20 female thread and come with your choice of eyebolts or 1/4"-20 male threaded screw hardware.

To install O-Baffles, attach the specified ceiling mounting hardware and suspension cable/chain/rod/etc. with the appropriate connector at the bottom end. Once the ceiling hardware is installed, attach the connector to the supplied attachment hardware on the O-Baffle.

Note: Kirei does not provide ceiling mounting hardware or cable/chain/rod.
